

Multi-carrier BuyBack Program

WITH NO ACTIVATIONS - MAY 2006

PROGRAM OVERVIEW

Atlantic Technology Group (ATG) has developed a customized program to assist our clients in recovering the remaining value on their legacy Wireless Data Devices. This program will facilitate the transition to newer, more reliable devices that are running on a better network.

The ATG buyback program will provide our clients with the following benefits:

- Recover remaining economic value on legacy devices.
- Peace of mind that your devices have been recycled in a responsible fashion.
- Focus on your core IT tasks. Our services allow your IT department to focus on your core competencies.
- Improve Serviceability of Devices. At this point all of these legacy devices are out of warranty. Break/Fix service on these devices is a slow and expensive process. Displacing this equipment with new devices that are under warranty makes this problem go away.

Atlantic Technology Group is a proven company with a great deal of expertise in wireless device technology. One of our unique capabilities is to “Enable” the refresh

WHAT YOU NEED TO PARTICIPATE

In order to participate in this program you need to follow the steps below:

1. Order a new data device and data plan.
2. Upon receipt of your new equipment – uninstall your old equipment
3. Follow the return instructions in order to send the old devices back to ATG.

WHAT WE DO

As part of this program ATG will provide the following services:

1. Receive de-commissioned equipment that has been sent to us from client's location.
2. Inventory, test and audit of equipment received. Provide discrepancy report back to client if applicable.
3. Payment to client within 4 to 6 weeks of receipt and acceptance of old devices.
